

# WORLD OF ACRYLIC

---

By the time of PMMA (Polymethyl Methacrylate acrylic) invention in early 20th century, this revolutionary material evolved in various directions. Today, a variety of acrylic polymer (transparent, translucent, opaque and coloured) are available with varying levels of light transmissions, impact strength, heat resistance, flow rates and release capabilities.

In a basic comparison to glass, PMMA shows similar strengths like transparency, translucency, clarity, brilliance.; but is certainly far more superior in terms of weight (half-the-glass-weight), impact resistance (up to 10 time more than glass) and easy-shaping in any sense.

For that, this exceptional material still remains the No.1 choice among many of nowadays industries.

In Acryform Plastoform, the acrylic specialist with over four decades of experience, we're eager to introduce the magic of Acrylic at its best. Welcome to our world!

# SOME FIND IT PROBLEMATIC. WE FIND IT CHALLENGING!

This catalogue is not so much about us than about you, for you are the one having brilliant ideas, putting a strong impact to the market. Since sometimes bringing an idea to life can be difficult, we recognized our mission as supporting your progressive ideas to happen.

Franc Gregorčič Sr. set the milestone to our nowadays company culture over four decades ago. We have grown, learned and invented stuff along our path to become one of the leading companies in sector. We have cutting edge technology and equipment, we possess unique knowledge, we have highly-skilled staff. Our own Development department with toolmaking unit is our competitive advantage. But most of all - we have a desire to do things nobody did before, to explore new possibilities and find unexpected solutions. It is in our hearts. It runs in the family - for we, as much as we have grown, are still a family company.

All this that makes the soul of Acryform Plastoform, is yours. Together we can do anything - all the way from the idea to the final product!

# CARAVANNING – WHERE IT ALL BEGAN!

Yes, it was the caravanning industry, that initiated our future path. Decades ago, our expertise began in a partnership with today's one of the most successful and recognized brands in the caravanning industry. Our partnership still lasts, showing Acryform Plastoform being a reliable, innovative and extremely flexible business partner through a vast period of time.

Countless hours, numerous tools made, number of new materials, experiments and experience influenced our expertise to grow significantly over the years. Following it, our market has grown and the number of satisfied clients increased.

Today, many successful caravanning brands' stories have been written with our products playing roles in them.

Our claim is - no limits.

Test us!

## ACRYLIGHT – Plastoform framed window

# LESS WINDOW, MORE VIEW

The new Plastoform window blends seamlessly into your leisure vehicle for an elegant, contemporary look.

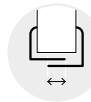

- **Hidden hinge for modern and stylish window look**
- **Compatibility with wall thickness 24 – 40mm**
- **Low product weight**
- **Suitable for flat or parabolic walls**

### **Hidden hinge for modern and stylish window look**

Completely flat outer pane without visible imperfections, fractures of light and gaps where dirt could accumulate.

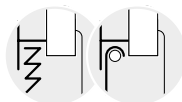

### **Compatibility with several different caravan wall thickness**

Same product can be used for wall thicknesses from 24mm up to 40 mm or more (with additional elements).

### **Low product weight**

Lower window weight compared to similar products on the market ensures lower weight of the final product (leisure vehicle).

### **Multiple blind system options**

Construction of blind system allows for installation of pleated or roller blind into the same frame. Different versions are available from basic to total blackout.

## ACRYLIGHT – Plastoform framed window

- Assembled with pleated or roller blind system
- Easy adjusting system for pleated blinds
- Full integration with interior materials
- Possible upgrade with LED backlight

### DIMENSIONS

700 x 300	800 x 450
700 x 500	900 x 600
750 x 600	

## **SKYVIEW** WINDOWS

---

For perfect views, we design a panoramic window that fits into the wall of your vehicle. Completely adapted to your existing wall, durable and designed to match perfectly other components on your vehicle.

---

## SKYVIEW WINDOWS

---

Our skyview windows enable your to feel as a part of the outdoors, they ensure the feeling of complete freedom and they make you feel you can reach for the stars.

## RM 14 WINDOWS

Very smooth crossings create a feeling of windows blended with the walls and new hinge composition with plastic endings make these windows appear stronger with small corner radiuses.

### WALL OPENING (mm), R75

450 x 550	850 x 750
500 x 400	800 x 750
600 x 550	870 x 520
700 x 300	1200 x 520
700 x 750	

## RM R75 WINDOWS

Flat or flush windows became very popular over the last few years; RM design was one of the first on the market. With both panes formed, the outer surface of the window is drawn closer to the vehicle to create the automotive look also on motorhomes and caravans.

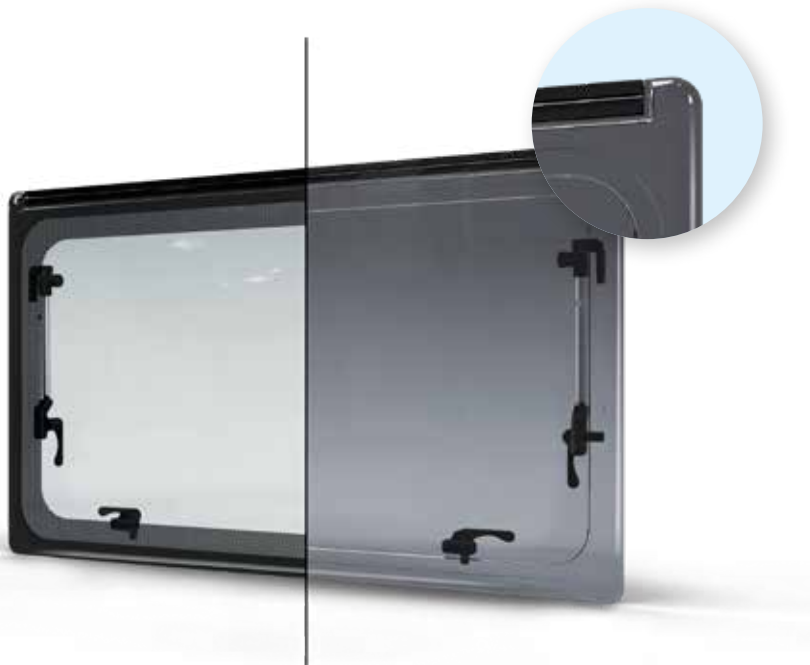

### WALL OPENING (mm), R75

350 x 500	700 x 350
550 x 600	900 x 400
700 x 300	1200 x 500

## RM R90 WINDOWS

Flat or flush windows became very popular over the last few years; RM design was one of the first on the market. With both panes formed, the outer surface of the window is drawn closer to the vehicle to create the automotive look also on motorhomes and caravans.

### WALL OPENING (mm), R90

550 x 600	700 x 350
600 x 250	900 x 520

## GD WINDOWS

Premium collection windows that combine all the latest trends regarding flat design and add rounded shape to make them significantly different from all the others.

**WALL OPENING (mm), R75**

900 x 520

## RM 14 ECO WINDOWS

Combining economic benefits of single formed windows with a goal to achieve as flat look as possible, were key factors at RM14 eco window development. Rounded shape makes it unique and luxurious looking.

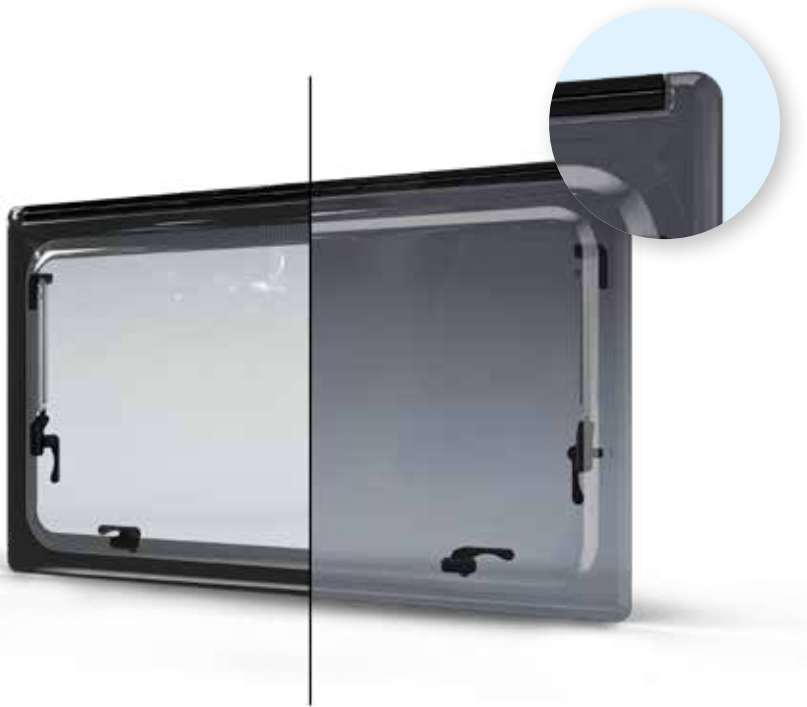

### WALL OPENING (mm), R75

500x480	900x450
500x520	910x800
700x350	1200x520
700x520	1300x180
870x520	

## RM ECO WINDOWS

It is not only the weight that has been lowered due to the thinner hinge, also the surface of outer pane was drawn closer to the vehicle and improvements have been made to shorten the time needed for its installation.

### WALL OPENING (mm), R75

350 x 500	700 x 450
500 x 250	700 x 500
500 x 550	900 x 450
540 x 450	900 x 500
540 x 500	900 x 520
550 x 600	1000 x 300
600 x 250	1300 x 500
600 x 500	1450 x 600
700 x 350	

## GD ECO WINDOWS

Attractive design that follows latest market demands with rounded sides and fairly flat outer surface. Consideration on costs has played an important role, but it still ensures the feeling of prestige.

**WALL OPENING (mm), R75**

900 x 520

## TM WINDOWS

Everlasting design of the windows with aluminium hinges and many available dimensions, you can perfectly match to desired final appearance or you caravan or motorhome.

# IMPORTANCE OF AWARENESS

Our company is situated in a breathtakingly relaxed region of Slovenia, among the gently rolling hills, covered with vineyards, orchards and forests, just above the serene valley of river Sava. We understand well that this little jewel can be preserved only by a great deal of respect and responsibility towards society and nature. So you bet we care about the environment!

And it is not just that we are aware of the importance of monitoring and working in compliance with environmental requirements. We strive to go above and beyond the usual measures of protecting our beautiful surroundings. It is our place, the land of our ancestors. We love it and we are immensely proud of it. We do everything we can to, as the old proverb goes, leave this priceless heritage to our granddaughters and grandsons intact.

So we recycle as much as we can (eco-friendly is resources-friendly!), we treat waste separately, we use more and more ecological materials, we daily lower our carbon footprint. We do our best to ensure long-term conditions for healthy working and living environment. This is more than a company policy: it is ingrained in us, and it is something we teach our young, our employees and ourselves every day.

We, the proud people, are living in a tightly-knit community. Our company provides income for many families in those cute little villages, and many families inspire us to do better, to evolve and to grow. We are a company, and we strive for profit, yet we value social capital a lot, perhaps even more. We like to contribute, to get and give back, to co-create a living, thriving society. That is why we have no "human resources". We have - and hope to have more! - friends.
